

“YOU DON’T HAVE TO TRAVEL ALONE THROUGH THE WORLD OF SALESFORCE”

DIGITAL MASS HELPS YOU NAVIGATE THE COMPLEX WORLD OF SALESFORCE

Salesforce implementations are as complex as your business. As an extension of your team, our consultants will serve as a trusted co-pilot to help you future-proof your outcomes and maximize your Salesforce investment across your organization.

AS YOUR CO-PILOT WE:

DON'T WAIT

We bring a clear point-of-view specific to your business to every project. We don't just wait for instructions.

CREATE OPPORTUNITY

We always find a way. Our opportunistic approach uncovers opportunities that our clients may not even be aware of.

FIND YOUR GLORY

We're here to make you look good. We are not a team of glory-seekers. We'd much rather be behind the scenes making things better.

WE WORK FOR YOU, NOT SALESFORCE

Digital Mass is made up of enterprise tech vets and certified Salesforce consultants that are local to Minnesota. Our team works with Salesforce teams at the top Fortune 500 companies. We understand how and where Salesforce fits into the modern enterprise – especially in regulated industries such as Financial Services, Healthcare, and Construction.
